CONTENTS

The Nature of Dystonia — *D. Denny-Brown* — 1

Inhibitory Systems in the Cerebellar Cortex — *J. C. Eccles, R. Llinás and K. Sasaki* — 7

The Nature of the Representation of the Visual Fields in the Lateral Geniculate Nucleus — *P. O. Bishop* — 15

Tactile Sentory Pathways from the Face — *I. Darian-Smith* — 27

Agenesis of the Corpus Callosum—Physio-pathological and Clinical Aspects — *M. A. Jeeves* — 41

An Auditory Feed-back System, involving the Organ of Hearing — *Jörgen Fex* — 49

The Neuromuscular Junction with special reference to Myasthenia Gravis — *J. I. Hubbard* — 55

The Myasthenic Syndromes and their Reactions — *George Preswick* — 61

Perception of Vibration — *A. K. McIntyre* — 71

The Mechanism of Reflex Irradiation — *James W. Lance* — 77

The Effects of Barbiturate Anaesthesia and a Muscle Relaxant on an Extrapyramidal Centre: Red Nucleus — *Ross Davis* — 83

Trigeminal Neuralgia—A Therapeutic Trial of Tegretol — *W. J. G. Burke and George Selby* — 89

Are Anticoagulants of Value in Disease of the Extracranial and Intracranial Arteries? — *P. J. Landy* — 97

Observations upon a Predominantly Sensory Hereditary Neuropathy — *D. C. Wallace* — 101

Subacute Spongiform Encephalopathy — *R. H. Rischbieth* — 111

Cerebellar Degeneration associated with Chronic Alcoholism — *Brian Turner and John Allsop* — 119

Dietary Deficiency and Experimental Allergic Encephalomyelitis — *G. Szego* — 127

The Innervation of the Mammalian Pineal Body — *G. C. T. Kenny* — 133

Aneurysms of Superficial Cerebral Arteries — *R. McD. Anderson* — 141

On Chiasmal Arachnoiditis with reference to the Pneumographic Diagnosis — *Anthony Fisher* — 147

The Value of Pneumoencephalography in Pediatrics — *E. Graeme Robertson* — 155
